***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-28, drawn to compounds, compositions and method of use of the compounds formula (I),
  - II. Claims 1-28, drawn to compounds, compositions and method of use of formula (II),

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions.

Invention of groups I-II is drawn to different compounds containing various hetero groups. For example compounds containing thiamorpholine group are different from the compounds containing an oxarane group.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for any other group II-VIII, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1616

Each group is drawn to separate inventions and it would be a burden on the Examiner to search all the groups in this application. A reference used to reject invention of one group may not be useful to reject the invention of any other group.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is requested to elect a species from the elected group for the search purposes.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sabiha Qazi whose telephone number is (571) 272-0622. The examiner can normally be reached on any business day.
